

## Psychology

Sarah Wallace

Submitted by Joshua Ramirez

Sarah Wallace is a Psychology major and President of the Psychology Club. She is a vibrant part of the community, organizing gatherings and special talks, each met with great enthusiasm by Psychology students. Her efforts and the efforts of the Club leadership infuse the campus with a necessary element of fun that, I hope, will help students see the campus as a second home.

I have found Sarah to be a gifted, caring communicator, and highly collaborative. Accordingly, Dr. Ayoub writes, "Sarah is a cheerful, engaging person who is ever supportive of people and causes. She energizes action for activities in class, on campus and off with her pleasant, can-do attitude, and is always a delight to have in class."
